

Offer a convenient phone card solution to customers at your location with a Sprint Prepaid Phone Card Vending Machine.

Business Advantages

Do More Business. Offer your customers a handy payment option for long distance calling with a Sprint Prepaid Phone Card Vending Machine. By providing quality Sprint Prepaid PhoneCards at your business location, you're diversifying the product line for your customers and expanding the ways you can serve their needs. A convenient Sprint Prepaid Phone Card Vending Machine gives customers a reason to keep coming back, and gives you an opportunity to make a profit on every sale.

Increase Your Revenues. With a Sprint Prepaid Phone Card Vending Machine, your business generates revenue from day one. There are no out-of-pocket expenses or hidden costs for installation or service. Sprint simply installs and maintains the equipment, and you make a fast and easy commission on every card you sell.

Improve Customer Loyalty. When you offer Sprint Prepaid PhoneCards at your business location, your customers will return again and again. After all, a Sprint Prepaid Phone Card Vending Machine provides the best phone cards available. Sprint is the market leader in phone card products, and is committed to providing smart telecommunications solutions for you and your customers.

Features

Benefits

- ▶ **Easy to Use** – A Sprint Prepaid PhoneCard allows a customer to conveniently call to any location from any location in more than 90 countries. So, the phone cards are particularly attractive to out-of-town college students and domestic and international travelers. Visual and voice prompts, language selection options, and other user-friendly features make it easy for any customer to place a Sprint call from nearly any phone. And, Sprint customer service operators are available 24 hours a day, seven days a week, to assist you with international calling rates and country codes.
- ▶ **Reasonable Rates** – Sprint Prepaid PhoneCards are inexpensive for customers to buy, and Sprint's competitive domestic and international rates make them especially appealing to travelers and budget-conscious customers.
- ▶ **Convenient Purchasing** – With a Sprint Prepaid Phone Card Vending Machine, your customers must pay with cash, which makes it an easy sale for you. And, since employees do not handle the same-as-cash products, the vending machine eliminates the risk of theft.
- ▶ **Profitable** – With a Sprint Prepaid Phone Card Vending Machine, there are no out-of-pocket expenses or hidden costs for installation and servicing. Your business simply makes a profit on every card you sell. Sprint performs ongoing preventative maintenance and persistent replenishment for your vending machine. That way, you always have available product and the opportunity to increase your revenues.

Quality Equipment

- ▶ **Enhanced Capabilities** – When your customers use Sprint Prepaid PhoneCards for Sprint phone service, they receive the convenience and enhanced capabilities that they expect from a telecommunications leader. Our digital fiber-optic network delivers crystal-clear, end-to-end connections on every call.
- ▶ **Reliable Service** – When you have a Sprint Prepaid Phone Card Vending Machine installed at your business location, you can rest assured that the equipment will be properly installed and maintained. The Sprint National Service Center is ready and able to respond 24 hours a day, seven days a week. So, if there is a problem, our trained professionals will quickly have your equipment up and running again.

Sprint's Commitment

- ▶ **Revenues** – With a Sprint Prepaid Phone Card Vending Machine, your business will make a competitive commission on every card you sell. Each month, you'll receive a timely, accurate commission check and detailed sales report.
- ▶ **The Sprint Advantage** – Sprint is a proven leader in providing long-distance and telecommunications services. As a single-source provider, Sprint can deliver better control, reliability, and responsiveness for all of your public access and telecommunications needs.
