

## SPRINT WHOLESALE CARRIER TRANSPORT<sup>SM</sup>

Sprint Wholesale Carrier Transport is a billing platform that can give you the flexibility to structure call rates and discounts specifically to the needs of your business. This product offers a detailed, individualized system for call rating and summary billing. Table-driven billing allows rating of individual calls, based on your contract with Sprint, to reflect multiple rate options and discount levels.

An easy-to-understand hierarchy provides the flexibility to segregate your traffic as needed and shows supporting detail for the summary charges on your bills from Sprint. Numerous user-friendly reports help you analyze traffic patterns, trends and mix. A choice of media options supports your internal systems and offers the flexibility to customize billing information to your needs.
