

## SPRINT WHOLESALE CPE<sup>SM</sup>

Sprint Wholesale now gives you the advantages of a single source for purchasing the data services your customers need, combined with the CPE that facilitates those services. Equipment available from Sprint Wholesale includes routers, channel service units/data service units (CSU/DSUs) and multiplexers. All CPE in this program has been certified by Sprint for use with Sprint Wholesale data services.

### Features

Serve your customers more effectively with the following features:

- ▶ Equipment order placed directly by Sprint Wholesale and purchase cost included on your next bill for service
- ▶ Manufacturer drop-ships equipment directly to you or your customer
- ▶ Optional maintenance agreements available from equipment manufacturers or through Sprint EISolutions
- ▶ Equipment available from industry-leading vendors such as Cisco Systems, Lucent, Nortel Networks and others

---

## Benefits

With the addition of CPE to its data service offerings, Sprint Wholesale can deliver the benefits of one-stop shopping:

- ▶ Leverage Sprint Wholesale's buying power with equipment manufacturers to obtain competitive pricing
- ▶ Simplify orders and billing by working with Sprint Wholesale for both data services and equipment purchases
- ▶ Purchase equipment for use in your own network or for resale to your customers\*
- ▶ Use your own personnel or vendors for equipment installation and service, or obtain referrals from Sprint
- ▶ Minimize the number of vendor relationships you must maintain
- ▶ Gain peace-of-mind with CPE that meets the quality criteria required by Sprint Wholesale data services

---

## Applications

Sprint Wholesale CPE serves two applications:

- ▶ Buildout of your own network
- ▶ Resale to your customers\*

---

## Availability

Sprint Wholesale CPE is available for data customers in any U.S. or international customer location. All CPE is available for purchase only.

\*Restrictions apply. Contact a Sprint account representative for details.
