

## SPRINT WHOLESALE PRIVATE LINE<sup>SM</sup>

Sprint Wholesale Private Line services provide dedicated WAN links to enhance data and voice communications for your customers or in your own network. The advanced design of the Sprint network can ensure outstanding reliability and millisecond service restoral. Plus, extensive worldwide coverage and service offerings from Sprint can help you meet your customers' global communications needs.

For the optimal balance of costs and bandwidth, choose from a range of private line speeds. And because Sprint configures T1 circuits in contiguous channels on a single DS3 line, you can add bandwidth quickly when needed.

### Features

Sprint Wholesale Private Line offers outstanding features for your customers and your own network.

- ▶ Choice of speeds from T1 to OC-3, including fractional DS3 (based on local availability)
- ▶ Channelized bandwidth supports both voice and data services on a single line
- ▶ Reliability of the Sprint synchronous optical network (SONET)/synchronous digital hierarchy (SDH) platform assures millisecond service restoral across the network (available in select locations)
- ▶ Dedicated account team and Sprint Physical Layer Center deliver end-to-end, 24 x 7 support

---

## Benefits

Choose Sprint Wholesale Private Line for these advantages:

- ▶ Enjoy completely private communications services and dedicated bandwidth worldwide
- ▶ Gain peace-of-mind with stellar reliability and consistent availability of the Sprint synchronous optical network (SONET)
- ▶ Tailor bandwidth to the needs of each application or location
- ▶ Rely on a single point of contact for installation and maintenance
- ▶ Leverage our 20 years of experience in building and managing data networks

---

## Applications

Sprint Wholesale Private Line offers a high bandwidth alternative for highly intensive voice, data and video applications:

- ▶ Private data network: Connect computers, data centers and back-up facilities over dedicated, secure lines
- ▶ PBX interconnection: Connect telephone and voice mail systems for efficient and cost-effective internal communications

---

## Availability

- ▶ Domestic: available at all Sprint points of presence (POPs)
- ▶ International: Global reach with 165 carriers to more than 115 countries
